## About me

My name is Nina van Bergen and I'm 20 years old. Since I was young I've been very interested in designing things that were related to fashion. A couple years later, I found out that I wanted to work as a stylist in the fashion industry, but I was also interested in the online world. After one year studying at Jan Des Bouvrie, I've started studying Communication and Multimedia Design at the Hogeschool van Amsterdam. I learn a lot there, mostly about working with programmes like Adobe Photoshop and Illustrator, but I also learn to make a real website by coding it. The study is mainly about the user experience, the visual and the technological side of the products you make.
